Chick Chat

JANIE BYNUM

To hang your Chick Chat Holiday Eggs,
have an adult cut a small hole for the string
approximately 1/2" from the top edge.

North
South

Print on card stock or construction paper if your printer allows; otherwise, use regular printer paper. You can decorate windows with eggs or hang eggs from tree branches with string. For eggs to hang, use heavier paper or glue paper to poster board or cardboard after printing. **NOTE: Adult should cut out eggs, or you must have adult supervision when using scissors.**
